Enthusiastic, hard working professional with a can-do attitude, entrepreneurial spirit, solid background in engineering and strong interest in Data and Software Engineering. Social and cheerful person, eager to adapt in new situations and environments. Committed to create a more sustainable society.

PROFESSIONAL EXPERIENCE

Software/Data Engineer
Novo Nordisk Digital Data & IT

Oct 2024–Present Copenhagen, Denmark

- Developed batch and streaming data pipelines to automate ingestion from manufacturing lines, APIs, and lab devices; reduced manual effort and improved data availability for analytics. *Stack: Kafka, Python/PySpark, Docker, Databricks*
- Designed and Built the Delta Lake for manufacturing data, enabling governed tables and cutting query latency from 10 minutes to 30 seconds. *Stack: Databricks, Python/PySpark, SQL*
- Improved Databricks development experience by designing local environments and CI/CD pipelines, introducing Infrastructure as Code and automated testing for faster onboarding and reliable deployments. *Stack: Databricks, Databricks Asset Bundles (IaC), DevContainers*
- Collaborated with Microsoft engineers on a PoC showcasing automated CI/CD for edge infrastructure using Azure Arc-enabled Kubernetes clusters, demonstrating scalable and production-ready deployments across distributed environments. *Stack: Azure, Kubernetes, Docker, Bicep (IaC), Bash*

Software/Data Engineer
Danfoss, Alsense IoT Food Retail Services

Sep 2022–Sep 2024 Copenhagen, Denmark

- Develop, build, and maintain batch and streaming pipelines to enhance analytics and ML projects. *Stack: TypeScript, Python, SQL, Kafka, Docker, Mage/ADF*
- Led the introduction and implementation of tools, that optimised the development and orchestration of data pipelines enhancing efficiency and standardizing workflows across projects. *Stack: Python, Mage, Docker, Kubernetes*
- Led the adoption of test-driven development (TDD), integrating comprehensive tests into existing projects, which strengthened service robustness and reduced bug resolution times. *Stack: Jest, Pytest, Docker*
- Led initiatives to evaluate OLAP and Data Lakehouse solutions to identify the best fit for our analytics platform. *Stack: ClickHouse, StarRocks, Databricks*
- Implemented a monorepo to enhance version control, testing, and deployment of database changes, reducing workflow inefficiencies and deployment errors. *Stack: TypeScript, Lerna/Yarn, Docker*

EDUCATION

M.Sc. Human Centered Artificial Intelligence

Technical University of Denmark

Feb 2020–Aug 2022 Copenhagen, Denmark

M.Sc. in Environmental Engineering

Technical University of Denmark

Sep 2015 – Jul 2017 Copenhagen, Denmark

B.Sc. in Civil Engineering

Technological Educational Institute of Crete

Sep 2007–Jun 2012 Heraklion, Greece

CERTIFICATES

Databricks Data Engineer
Professional - Databricks Academy,
Sep 2025

Databricks Data Engineer Associate -
Databricks Academy, May 2025

PostgreSQL Bootcamp - Udemy, Mar
2022

PRINCE2 Foundation Certificate in
Project Management - AXELOS
Global Best Practice, Jun 2019

IT SKILLS

Python TypeScript PostgreSQL

Spark/Databricks Kafka Docker

Kubernetes Azure Mage
